

# DISCOVERY DAY

## ITALY

### *Padova*

Padova is a picturesque city with Renaissance architecture, located 40 km west of Venice. With a dense network of arcaded streets opening onto large squares and numerous bridges crossing the various branches of the Brenta and Bacchiglione rivers, which surround the ancient walls like a moat... Padova is the world capital of 14th-century painting, thanks to the genius of Giotto, who executed the famous Scrovegni Chapel.
