

DISCOVERY DAY

ITALY

Padova

Situated 40 km from Venice, Padua is a charming town on a human scale, popular with visitors thanks to its Renaissance architecture and the many treasures it contains.

With a dense network of arcaded streets opening onto large squares and numerous bridges crossing the various branches of the Brenta and Bacchiglione rivers, which surround the ancient walls like a moat... Padua is an important city for 14th-century painting thanks to the genius of Giotto, who executed the famous Scrovegni Chapel, a must-see for all art lovers..

The programme of your extension

- Departure from Venice to Padova by train in the early morning (20-minute journey)
